

# And It Don't Stop

## Somethin' for The People

And it don't stop and I won't stop  
And it don't stop till the break of dawn  
And it don't stop and I won't stop  
And it don't stop till the break of dawn Tonight's the night you've waited patiently  
Now I've got a prize for ya, ooh, the surprise is me  
Gonna show you what you waited for, I'm sure you'll be satisfied  
And baby, what's in store is gonna blow your mind If you got the time, gonna take you someplace  
I'm gonna do somethin' good to put a smile on your face  
So please get comfy and you can lose your shirt, yeah  
Baby, relax your mind and put your body to work And it don't stop and I won't stop  
And it don't stop till the break of dawn  
And it don't stop and I won't stop  
And it don't stop till the break of dawn Candlelight and body lotion, a glass of a wine  
What more could you need than to have your body next to mine?  
I got what you need, you don't have to go nowhere  
Unless you're [Incomprehensible]  
Let me run my fingers through your hair If you got the time, gonna take you someplace  
I'm gonna do somethin' good to put a smile on your face  
So baby, get comfortable and you can lose your shirt  
Baby, relax your mind and put your body to work And it don't stop and I won't stop  
And it don't stop till the break of dawn  
And it don't stop and I won't stop  
And it don't stop till the break of dawn And it don't stop and I won't stop  
And it don't stop till the break of dawn  
And it don't stop and I won't stop  
And it don't stop till the break of dawn And it don't stop and I won't stop  
And it don't stop and I won't stop  
And it don't stop and I won't stop  
And it don't stop till the break of dawn Let me love you, let me love you, girl
