

# You Come Around

## HOLDING BACK ENTIRELY

you come around when the wind blows,  
you come around when you're bad,  
you come around when the sadness  
makes you want to get laid, you come around when the rain falls,  
you come around again,  
you come around  
when your husband plays with a dirty hand and i say stay, show me your head,  
cry child, cause i'm idling wild you come around when you're empty,  
all dressed up and rude,  
you come around when your feelings  
leave you all confused,
