

# Sippin' On Fire

## Florida Georgia Line

Girl you melt me like ice and whiskey  
With those blue fling looks that you give me,  
You can't hide what's inside  
And it's killing me right now to see  
You wanna slip off with me again Why should we go round and round the truth,  
Like we been doin'?

Every time we lie girl we're losing  
So why should we spend Saturday night alone,  
When I can call you on the phone, pick you up  
Make it up as we go along  
Pull and all nighter chasing that desire  
Sparks flying in her eyes like lighters (like lighters)  
Get a little higher (get a little higher)  
Sippin' on fire You act like you don't know what you're missing,  
Every time you end up back with him  
'Cause it's safe, and you're scared.  
Of everything you're feeling when  
We're burning the midnight down again Why should we go round and round the truth, like we been doin'?

Every time we lie girl we're losing  
So why should we spend Saturday night alone,  
When I can call you on the phone, pick you up  
Make it up as we go along  
Pull and all nighter chasing that desire  
Sparks flying in her eyes like lighters (like lighters)  
Get a little higher (get a little higher),  
Sippin' on fire Every goodbye is bitter sweet,  
So why should we fight what we both need? Why should we go round and round the truth, like we been doin'?

Every time we lie girl we're losing  
So why should we spend Saturday night alone,  
When I can call you on the phone, pick you up  
Make it up as we go along  
Pull and all nighter chasing that desire  
Sparks flying in her eyes like lighters (like lighters)  
Get a little higher (get a little higher),  
Sippin' on fire Girl you melt me like ice and whiskey  
With those blue fling looks that you give me,  
You can't hide what's inside  
And it's killing me right now to see  
You wanna slip off with me
