Way Up

Podgy Smith

Chorus:
Say all the time we go way way way way way way way way way way going way up
And you know how it go
I love how she go way way way way way way way way way way going way up
At night time we go way way way way way way way way way way going way up
And you know how it go
She love how I go way way way way way way way way way way going way up
And you know how it go
So you know she'll roll

Verse 1
She get a vibe that she can't get
From you that she won't get
All I know is she won't quit
All I know is she want this
She got that
Vibe like Aaliyah Im rocking her boat
One in a million I hope that she know
4 pages letter you know that she wrote
More than a woman
You know that I know
So it ain't no question
No it ain't no question
No it ain't no stressin
I live what I say & I say what I live
No it ain't no flexin
Yeah you know how it go
So you know she'll roll
See she don't trust these niggas
I don't trust em either
We out here makin plays
While they hatin in the bleachers
Way up way up way up way up
They can't even reach us
She a perfect piece
I think I found my Mona Lisa
Vibe she got the energy
Wave I know she into me
Sauce we got that chemistry

Glow we got that synergy
Real aint no pretend to be
Just know I know she into me

Chorus:
Say all the time we go way way way way way way way way way way way going way up
And you know how it go
I love how she go way way way way way way way way way way way going way up
At night time we go way way way way way way way way way way way going way up
And you know how it go
She love how I go way way way way way way way way way way way going way up
And you know how it go
So you know she'll roll

Verse 2
Where did she come from
How did I get here
All of these glasses covered in lipstick
All of these moments
Thought I would miss this
Magnum wrappers
I handle my business
Say she love me say she love me
She just lost in the city
My calls always unlisted
She Lana Del Rey lifted
Yeah Yeah
So it ain't no question
No it ain't no question
No it ain't no stressin
I live what I say & I say what I live no it ain't no flexin
Yeah you know how it go
So you know she'll roll
See she gon hold it down
I give her what she need
l said she got that vibe
That vibe thats something you can't see
It's hid between the lines
The lines I know that you couldn't read
She a perfect piece
I think I found my Mona Lisa
Vibe she got the energy
Wave I know she into me
Sauce we got that chemistry
Glow we got that synergy

Real aint no pretend to be
Just know I know she into me

Chorus:
Say all the time we go way way way way way way way way way way way going way up
And you know how it go
I love how she go way way way way way way way way way way way going way up
At night time we go way way way way way way way way way way way going way up
And you know how it go
She love how I go way way way way way way way way way way way going way up
And you know how it go
So you know she'll roll
