

No Matter What

Future

Aye

We didn't even know it was gonna be like this
But we told each other we gonna be there for each other
No matter however it goes
Y'know what I'm sayin', screwed up like that We made a bond from the very beginning
I found my homie and my best friend
I'mma be there for ya till the very end
No matter what, no matter what, no matter what, yeah
We broke the rules, we took it further then
We made a promise to each other we gone never end
She gone be there for the kid, no matter what
No matter what, no matter what, yeah We met through a mutual friend
We started clubbing, drinking, talking
Laughing and grinning
You had your eyes on me the whole time
I could see ya through my lens
Your face your shape and the lil things about ya
Had the kid all in
Anytime we spend time, we spend more than we spend benjamins
What the fuck this high siddity girl want to do with an astronaut kid...
Or asking myself questions, I had to understand
You gotta live and learn to make mistakes to be the man
We didn't mean for it to get this serious
I got another nigga bitch with me
And I'm falling for her, yeah I'm falling for her
We ain't got no strings attached
I want her more and more We made a bond from the very beginning
I found my homie and my best friend
I'mma be there for ya till the very end
No matter what, no matter what, no matter what, yeah
We broke the rules, we took it further then
We made a promise to each other we gone never end
She gone be there for the kid, no matter what
No matter what, no matter what, yeah We can talk about whatever, we can fuck whenever
It's like we're walking on rose petals, when we together
I see you jocking me, and I'm jocking you harder
You got everything a woman want, I still want to spoil ya
And your loyalty to him ain't my concern 'cause you're loyal
It's like we been casted with a spell or both ate some poison

Tell him I ain't mean to intervene with his main thing
You my main fling, I took it main stream
Everyday its nice to share our main dreams, and ain't a damn thing
Will never come between, our thing
And we ain't mean for it to be this serious
I made a promise to you and I'ma take it serious
'Cause I know my words mean the most to you
And you mean the most to me
We got a special relation, can't nobody come between We made a bond from the very beginning
I found my homie and my best friend
I'mma be there for ya till the very end
No matter what, no matter what, no matter what, yeah
We broke the rules, we took it further then
We made a promise to each other we gone never end
She gone be there for the kid, no matter what
No matter what, no matter what, yeah
