

# Fire and Water

Wilson Pickett

Every single day I got a heartache comin' my way  
I don't wanna say goodbye, but look at the tears you made me cry  
I don't wanna say goodbye, mama  
But look at the way you made me cry  
Every way that's nice  
You got a heart that's made of ice That's why I know (fire and water musta made you their daughter)  
You've got what it takes to make a poor man's heart break  
A poor man's heart break Woman, you turn me on, but quick as a flash your love is gone  
Baby, I'm gonna leave you now  
But I'm gonna try to make you grieve somehow (Fire and water musta made you their daughter)  
You've got what it takes to make a poor man's heart break  
A poor man's heart break Aah, I don't wanna say goodbye  
But look at the way you made me cry, yeah  
Every way that's nice  
You got a heart that's made of ice That's why I know (fire and water musta made you their daughter)  
You've got what it takes to make a poor man's heart break  
Oh, oh, (fire, fire and water musta made you their daughter)  
Lord, got what it takes to make a poor man's heart break  
Ow, (fire, fire and water musta made you their daughter)  
You've got what it takes to make a poor man's heart break
