Cool With You

Nina

Late last night, I was going through some old things
When i saw a picture of you, my best friend
It reminded me at days when you were mine
You had a way that always left me here with a smile
I want those sweet days back again, cause baby

Refrain
It's sunny day but you're not around
That all the rain might as well be pouring down
It's such a shame cause my hearts on the ground
Just wanna be cool with you again

Sometimes i Sit by the fire and reminisce
About the times that we spent in front of it
And that old flame will never be the same
Until you came back here and rekindle it
I just wanna share my heart with you again, cause baby

Repeat refrain

I fall asleep at night; and often see you here in my dreams
(in my dreams) Holding me (holding me) yeah baby
But when i wake up and realize that you're not here with me
It hurt so much, I gotta have you back baby

Repeat Refrain

(it's a sunny day) I wanna be cool with you again
(but you're not around) just come back and be with you
Whoa Whoa that all the rain might as well be pouring down yeah
It's such a shame co'z my hearts on the ground
Just wanna cool with you again
