

# Time We Fight

## Radon Que

Donâ€™t let the sadness get you  
Donâ€™t let the sadness get you  
Donâ€™t let the sadness get to you  
Donâ€™t let the sadness in

Iâ€™ve always fought against evil  
and Iâ€™ve always won.

Maybe someday you  
can join the fight against evil.  
The world depends on you  
the worlds children depend on you.  
Itâ€™s now time to take action and fight  
Fight for what you believe in  
And fight for what you love.

They're taking these drugs to get closer to the demons

Day after day they are running around taking they're clothes off running in the streets killing people

And what are you going to do about it? What are you do to change things. You gonna just sit on your couch and watch tv or are you going to get out there and dance, are you going to get out there with me, are you going to make a difference.

Donâ€™t let them push you around.  
Donâ€™t let them push

Time and time we  
Fight this Fight.  
Now we need you by our side.

Iâ€™ve always fought against evil  
and Iâ€™ve always won.
