

# Mvp

## Corey

Ooh hey ooh  
Girl you know ooh  
Come on, come on  
There is a funny feeling lately when you talk to me  
I feel as if there's something your not telling me  
I been hearing crazy roomers flying all around  
What's the deal girl on the real girl  
You don't wait for me at the bus stop no more  
Don't even bring extra chips in lunch for your boy  
With that steady sessions I, I am failing with out you girl  
I just wanna know are we still down?  
I don't want nobody else  
I like having you around  
Baby can't you see?  
I need you on the team  
Can't win with out you my MVP  
I just wanna know are we still down?  
I don't want nobody else  
I like having you around  
Baby can't you see?  
I need you on the team  
Can't win with out you my MVP  
I know I'm pretty young and I got a lot to learn  
But this situation really got me concerned  
I saw a list with you name by someone else  
Where was mine girl this the first time girl  
Don't have to be this way watching you slip away  
I never felt this way almost throw your picture away  
I bet he can't make you laugh and smile like me  
'Cause we was down before we could read girl you know  
I just wanna know are we still down?  
I don't want nobody else  
I like having you around  
Baby can't you see?  
I need you on the team  
Can't win with out you my MVP  
I just wanna know are we still down?  
I don't want nobody else  
I like having you around

Baby can't you see?  
I need you on the team  
Can't win with out you my MVP  
Yo yo you wanna ride with the king extreme

Shaq glim shaq wrist just bling  
Ever since 15 big things ever since I spit 16  
So if you wanna holla come and see me  
I need you to be the MVP  
Or do you wanna stand and watch  
And notice how each women just  
Freeze when they see me  
23's with the wood grin and a TV  
Keep hits running veins on GP  
I'm the one with the game on lock  
And them thangs on the drop  
And it ain't gonna stop no I'm the same one  
That you get the love and the nicknames from  
Trust me I'm focused on the life girl  
Who would of knew your left hand ring finger  
I mean I do it for you, come on  
Girl I just wanna know are we still down?  
I don't want nobody else  
I like having you around  
Baby can't you see?  
I need you on the team  
Can't win with out you my MVP  
I just wanna know are we still down?  
I don't want nobody else  
I like having you around  
Baby can't you see?  
I need you on the team  
Can't win with out you my MVP  
I just wanna know are we still down?  
I don't want nobody else  
I like having you around  
Baby can't you see?  
I need you on the team  
Can't win with out you my MVP  
And if your feeling me, all my ladies scream  
If your feeling me, home town let me scream  
If your feeling me, west side let me scream  
If your feeling me, east side let me scream, oh girl  
I just wanna know are we still down?  
I don't want nobody else

I like having you around  
Baby can't you see?  
I need you on the team  
Can't win without you my MVP
