

Show Me the Money We Wont Have Problems

Ken Baro

Show me the money we won't have problems
Show me the money we won't have problems
I don't care how bad these things can get
I don't give a damn how rough these things can get

Give me my money now
Now now now now now now now now
Show me my money now
Now now now now now now now now Æ—2

This people they talk too much
This people they treat you bad
The same people they underpay you
The same people they disgrace you
They talk and talk and talk and talk
While we work we work we work we work
They talk and talk and talk
We work we work we work
Show me the money now

Chorus

Reality is stranger than fiction boy
Bad times are more good times are few
More people frown
Less people smile we call it cheda
You call it dollar
Pay what you owe him pay what you owe me
Coz I don't care how bad this shit can get

Chorus
