

Without You (there'd Be No Me)

Aaron Carter

Come on
Uh, uh, uh
I've been around on this journey, and I'm learnin'
As the world keeps turnin'
You've got to face the fight, just to live the dream
(Just to live the dream)
Who could have believed that what I've achieved
Touring the globe and all those fond memories
(What?)
Who would have guessed it would be like that
(It would be like that, come on)
But through it all, who's been there for me
To care with me, even shed a tear for me
You're the one who's kept it real
So in return this is how I feel
(Come on)
Lookin' back at where I came from?
And I had to tell you in this song
Without you where would I be?
(Come on, hear me out now)
No matter where this road may lead me
Hometown boy or a face on TV
It's plain to see that without you there'd be no me
(Be no me, come on)
It's a dream that I've come so far
The ups and downs were there
But I've worked so hard
(That's right)
Many people don't know the life I live
(The life I live, what?)
Always on the road, always plannin' a show
Gettin' down to buisness in the studio
(Studio)
I can face the day 'cuz the love you give
('Cuz the love you give, come on)
Through it all when the day is done
The night has begun
You're still my number one
You're the one who's kept it real

So in return this is how I feel
(Come on)
Lookin' back where I came from?
And I had to tell you in this song
Without you where would I be?
(Come on, hear me out now)
No matter where this road may lead me
Hometown boy or a face on TV
It's plain to see that without you there'd be no me
(Be no me, come on)
One shout to my family
'Cause when things get hard, they understand me
Two shouts to my boys at home
All though I'm not there, you know you're not alone
Three shouts to my label because without them
I would not be able to make the fourth shout out
To the ones I think about, the masterpiece to the
Masterplan, that's you the fans
Looking back where I came from?
(From where I came from)
And I had to tell you in this song
Without you where would I be?
(Come on, hear me out now)
No matter where this road may lead me
(This road may lead me)
Hometown boy or a face on TV
It's plain to see that without you there'd be no me
(Looking back from where I came from)
Looking back from where I came from
And I had to tell you in this song
Without you where would I be?
(Where would I be today?)
No matter where this road may lead me
Hometown boy or a face on TV
It's plain to see that without you there'd be no me
(Plain to see)
(Be no me)
