

Business

Catfish and the Bottlemen

I wanna love you, but I've no time.

Your friends can fuckin' do one, I've had a rough night.

Lets get drunk in your bedroom, and I'll make smoke in your windows, until you're urging to tear off your clothes
And all I wanna know, is just how far you wanna go.

(Chorus)

I wanna make it business, i wanna tolerate drunk you hunny

I wanna make it my problem Listen, I know I said you'd be sleeping, baby it's been a rough night.

Narcissistic but fuck it i'm calling, I need to know you're alright. You see now, i've found a lover, who can be at peace with my mother and I ain't ever lettin' her go
And all I wanna know, is just how far you wanna go. Chorus

X2 If you've been having doubts at all, you can come and mess my bed up and i can change your marital set
up chorus x2
