

Kiss Me

Shelly Fairchild

Sittin' 'round here in the Memphis heat
Only one thing to do
Get on out of this delta sun
And start lovin' up on you 'Cause in the mornin'
Oh, I want you in the evenin'
All the time and in between it
I want you in every way So kiss me
I just wanna be together
And no one's gonna love you better
Every night and every day, yeah, yeah Sittin' here starin' at the muddy water moon
Underneath the spell of the night
I'm gonna give you everything I got
So get over here and hold me tight 'Cause in the mornin'
Oh, I want you in the evenin'
All the time and in between it
I want you in every way Oh, yeah, so kiss me
I just wanna be together
And no one's gonna love you better
Every night and every day, yeah, yeah Baby, know you got me by the look in my eyes
Oh, I give myself away
Somethin' 'bout the way you are is workin' on me
And there is nothin' left that I can say, yeah, yeah Oh, yeah, kiss me
I just wanna be together
And no one's gonna love you better
Every night and every day, yeah Oh, yeah, in the mornin'
Oh, I want you in the evenin'
All the time and in between it
Every night and every day, yeah, yeah
