

Standing Ovation

Babyface

I can't imagine how you be gettin' through your day
It must be hard when you be carryin' all the weight
But even with that I see you, you rarely do complain
You give your heart and soul and still they don't appreciate
Man to woman I got nothin' but respect for you
Just knowing you got to deal with all the things we put you through so
I give a standing O to you
I raise my glass to you I won't pretend to know
I can't begin to know
I'm fascinated on the daily how you do the things you do
Man to woman I ain't got a clue though, oh no
Girl I'm so mesmerized, I'm even mystified
Your perfection shows in everything and anything you do
Man to woman I ain't got a clue no
It's amazing how you do all that you do oh
Suffice to say my hat goes off to you
A standing ovation
And I just want to give a standing O to you
A standing ovation I can't imagine myself walking in your shoes
It's not even worth the challenge, I know that I would lose
You just extraordinary way above the ordinary
There ain't no conversation, been that way since gods creation
Man to woman I can't help but be in awe of you
No matter what the deal somehow you always make it through, so
I give the standing O to you
I raise my glass to you I won't pretend to know
I can't begin to know
I'm fascinated on the daily how you do the things you do
Man to woman I ain't got a clue though, on no
Girl I'm so mesmerized, I'm even mystified
Your perfection shows in everything and anything you do
Man to woman I ain't got a clue no
It's amazing how you do all that you do oh
Suffice to say my hat goes off to you
A standing ovation
And I just want to give a standing O to you
A standing ovation Man to woman I got nothing but respect for you
Just knowing you got to deal with all the things we put you through, so
I give a standing O to you

I raise my glass to you I won't pretend to know
I can't begin to know
I'm fascinated on the daily how you do the things you do
Man to woman I ain't got a clue though, oh no
Girl I'm so mesmerized, I'm even mystified
Your perfection shows in everything and anything you do
Man to woman I ain't got a clue no
It's amazing how you do all that you do oh
Suffice to say my hat goes off to you
A standing ovation
And I just want to give a standing O to you
A standing ovation An ovation
A standing ovation
And I just wanna give a standing O to you
A standing ovation
