

One True Love

Robin Guthrie / Harold Budd

All above me the stars are bright
And a sweet suburban breeze is blowin'
And down the block are the parkin' lights
Of a hundred friends who I barely know and
Don't know me, don't know me
None of them know me
And all through the party I want to leave
All alone with one true love
I could be happy if only I could be
In the dark with one true love
And in the middle of everyone
I still find myself with my thoughts alone
And in the middle of all the noise
Look around myself at the shinin' toys that
I don't need, I don't need
I don't really need
And all through the party I want to leave
All alone with one true love
All of the lights are shinin' on me
But all I want is one true love
In this world I can see
Many billions waitin' in the sun
So I'd love to believe
There'd be one of us for everyone
One of us for everyone
Enough to go around
But that's not what I've found
And all through the party I want to leave
All alone with one true love
All of the lights are shinin' on me
But all I want is one true love
All of my life I've just wanted to be
In the dark with one true love
Every day and night to be
Oh with one true love
With one true love
With one true love
With one true love
