In My Life

Judy Collins

There are places I remember all my life
Though some have changed
Some forever, not for better
Some are gone and some remain
All these places have their meanings
With lovers and friends I still can recall
Some are dead and some are living
In my life, I've loved them allBut of all these friends and lovers
There is no one compares with you
And these memories lose their meaning
When I think of love of something new
Though I know I'll never lose affection
For people and things that went before
I know I'll often stop and think about them
In my life, I love you moreThough I know I'll never lose affection
For people and things that went before
I know I'll often stop and think about them
In my life, I love you more
