

# My Bae (feat. Jeremih)

## Vado

Swing my way

Let me take you somewhere that I'm headed, baby

You can play

Treat you like my hustle, you know I be on that all day

I'm on the block serving yay to make it straight

You my bae

You my bae

You my bae Ambitious, I am vicious

If you watching arms in the party you can't miss us

Watches galore, ladies watch us for sure

Top of the floor, vodka bottles to pour

Rock with your boy, we can sail out to Malibu

Her swag powerful, Channel flower shoe

Goddamn, who be styling you?

Like I wish I was you, tell 'em to look our view

I love the flow, it's a Harlem thing

If I blow trial, they watch the court, no college game

I done did keys, that's not a thing

I run these MCs like Hollis, Queens

When the air thinner, you found me

Can tell you don't travel, you need a trip out the county

If I'm that nigga then crown me

Denzel would have a problem gettin' women around me Swing my way

Let me take you somewhere that I'm headed, baby

You can play

Treat you like my hustle, you know I'll be on that all day

I'm on the block serving yay to make it straight

You my bae

You my bae

You my bae On the boardwalk I'm feelin' like "Nucky" Thompson especially

There's always a Gyp Rosetti to test me

Lotta women I ran through

If I wanna clip that's something I make his man do

Boss talks since day one

Used to play the block where the ROC, Jay and Dame hung

With Big L, Cam, and Ma\$e hung

Alotta yay slung was too young hopin' my day come

Now I'm pullin' up with the baddest

So bad that she made the moment a classic

So sad that she killin' 'em in them classics  
We call 'em throwaways but baby Swing my way  
Let me take you somewhere that I'm headed, baby  
    You can play  
Treat you like my hustle, you know I'll be on that all day  
    I'm on the block serving yay to make it straight  
        You my bae  
        You my bae  
    You my bae Tuxedos and bow-ties  
        Black tie affair yeah we so fly  
        No matter where we go by  
    What you wondering where we can go buy  
        You a hustler? Put your hands up  
    Ladies I'm lovin' ya won't you stand up  
        We takin' over like and what  
    This the take over ya man up! Swing my way  
    Let me take you somewhere that I'm headed, baby  
    You can play  
Treat you like my hustle, you know I'll be on that all day  
    I'm on the block serving yay to make it straight  
        You my bae  
        You my bae  
    You my bae Let me take you somewhere that I'm headed, baby  
    You can play  
Treat you like my hustle, you know I'll be on that all day  
    I'm on the block serving yay to make it straight  
        You my bae  
        You my bae  
        You my bae
