

# Race To Erase

## Son Lux

Oh, the vacant night  
Speaking silence you wrote  
I would follow you Scattered pieces of you  
Filling spaces you were  
Silence followed you  
Speaking out my name  
Come again, come again, come again And we race to erase Absent glimpses of you  
Story lost with time  
Shadows followed me  
Calling out my name  
Come again, come again, come again And we race to erase Oh, the hallowed night  
Cries of silence we wrought  
How it followed us Scattered pieces of us  
Filling spaces we were  
Silence followed us  
Crying out our names  
Come again, come again, come again And we race to erase
