

Loved By You (cowboy Waltz)

Jewel

Oh the night draws on and on
Now that you're gone
Now that you're far away
My thoughts seem to stray

I sit alone and stare
Even though you're not there
Even though you're not mine
Forever I'll pine

[Chorus]

You may call me foolish
Oh I try and you know it'll be true
But I don't wanna be loved
By anybody but you
No, I don't want to be loved
By anybody but you

Sit alone all day
Hours pass that way
Wishing you were here
Holding me dear

[Chorus]

At night when I'm home
I listen for the phone
Waiting for it to ring
At night in my bed
Thoughts go wonderin'
If you feel the same

[Chorus]
