

Fiona Coyne

Saint Pepsi

[Spoken:]

I can't believe how happy I am
I think I was embarrassing with them, wasn't I
Does that mean you didn't have any champagne?

I did

Too much First on the silver screen
She's always playing make-believe
And she's got emerald eyes
That let me know just what she needs It's hard to show
Exactly what she means to me

I'll give the world

A girl like that don't come for free Oh, darling, won't you believe me?

I love you 'till the record stops

Oh, darling, won't you believe me?

I love you 'till the record stops Oh, darling, darling

Now darling, darling

Darling, darling

I love you 'till the record stops First on the silver screen

The brightest star I've ever seen

She takes me to a better place

She dances like I can't believe And it's hard to show

That every day feels like a dream

I'll give my world

To keep that girl right next to me Oh, darling, won't you believe me?

I love you 'till the record stops

Oh, darling, won't you believe me?

I love you 'till the record stops Oh, darling, darling

Now darling, darling

Darling, darling

I love you 'till the record stops
