

The Hungry Wolf

X

I am the hungry wolf and run endlessly with my mate
I see the gutter feed on the foolish outrun and kill the strong
At daybreak i roam awake to who follows me
I roam I roam I am the hungry wolf and run endlessly with my mate
Welcome to the dripping jaws the alter of your death At daybreak i roam ready to tear up the world
I roam I roam The hungry wolf stares from the hill at the villagers around the fire
She loves her mate as he loves her and they live together for life I am the hungry wolf and run endlessly with my
mate Look across the street, my friend
We're waiting for you to slow down
At daybreak i roam eyes in the back of my head
I roam I roam The hungry wolf stares from the hill at the villagers around the fire
She loves her mate as he loves her and they live together for life I am the hungry wolf and run endlessly with my
mate
I see the gutter feed on the foolish outrun and kill the strong
At daybreak i roam ready to tear up the world
I roam I roam
