

# Never Is a Long Time

[Eleanor Friedberger](#)

The hour is almost over  
The day is turning on a dime  
I never rode with you in clover  
And never is a long timeWe are less then nothing  
Nothing is a perfect thing to rhyme  
I'll never have your loving  
Never is a long timeAnd I've had a glimpse of the infernal  
And I have witnessed this line  
The night time is eternal  
That's a long, long, long timeSometimes the hands stop moving  
Some clouds won't ever shine  
We were our own undoing  
Never is a long time  
Now it's on November  
Hiding all the summer's crimes  
All the things I'll never remember  
Never is a long time
