

# Heart of Steel

## Crimson Glory

Your love hides like a dark star  
Shining, hidden in fear, strangers feeding  
Upon your soul, call me on through the darkness  
Hold me deep in your heaven  
Touch me with fingers of velvet blue  
Fingers of misty blue  
Feelings deep as the ocean  
Cold waves whisper their warning  
Danger walks with a fragile heart  
Got to have a heart of steel  
Heart of steel  
Yeah, heart of steel  
You journey through my mind  
Over the walls of pain, angels of lust  
Guard my domain while dark eyes  
Shine in the mirror, searching for someone  
Strangers, cold as the winter wind  
Fade away  
Got to have a heart of steel  
Heart of steel  
Got to have a heart of steel  
Heart of steel  
Lonely freedom, eyes on pain  
Tears will fall like silent rain  
Hearts will shatter, feelings fade  
Somehow it always seems the same  
My love hides like a dark star laughing  
Hidden in silence, strangers cold as the winter wind  
Fade away  
Feelings deep as the ocean, cold waves  
Whisper their warning, danger walks  
With a fragile heart, walks with a fragile heart  
Got to have a heart of steel  
Heart of steel  
Got to have a heart of steel  
Heart of steel  
'Cause the feelings come and go  
And you never really know  
If the feeling's ever real  
So you got to have a heart of steel  
You got to have a heart of steel
