

# Like 'em Like That

Kaci Brown

Looking for single  
Hot, gorgeous boys  
Hello?  
Calling all boys  
I like it like that  
Boys all these boys only boys  
Got nothing but boys on my mind  
Asian, Hispanic, Caucasian, and black  
So many I just can't decide  
They lick their lips, blow me a kiss  
Whenever they see me walk by  
Some cute, some naughty  
Some sweet sexy bodies  
I just can't resist them cause I  
I like, I like, I like 'em like that  
I like, I like, I like 'em like that  
I like, I like, I like 'em like that  
I like 'em good, but I love 'em bad  
I like, I like, I like 'em like that  
I like, I like, I like 'em like that  
I like, I like, I like 'em like that  
I like 'em good, but I love 'em bad  
Love is it love, I'm in love  
When a boy gets that look in his eyes  
They never quit coming  
They've all got their something  
They've all got their je ne sais quoi  
Instant attraction sweet satisfaction

It's almost too easy for me  
To get into trouble 'cause boys are like bubbles  
Their promises don't mean a thing, no no  
I like, I like, I like 'em like that  
I like, I like, I like 'em like that  
I like, I like, I like 'em like that  
I like 'em good, but I love 'em bad  
Give me a man that would give me the world  
No I could never be his girl  
But show me a man that has nothing I need

He'll mean the world to me  
I like, I like, I like 'em like that  
I like, I like, I like 'em like that  
I like, I like, I like 'em like that  
I like 'em good, but I love 'em bad  
I like, I like, I like, I like 'em  
I like, I like 'em like that  
I like, I like, I like, I like 'em  
I like, I like 'em like that  
I like, I like, I like 'em like that  
I like 'em good, but I love 'em bad  
I like, I like, I like 'em like that  
I like, I like, I like 'em like that  
I like 'em good, but I love 'em bad  
I love 'em bad
