Touched By An Angel

Shadowman

Touched by an angel- Shadowman.
(S. Morris & S Overland)

Looking back on my life
no-one ever touched my soul
I never let anyone inside
And as the years drift on by
I never had a reason
to change my mind

Now the wind that blows inside my heart
Is still and calm tonight
And i can't believe, what it is I see
Here before my eyes.

Chorus:
I've been touched by an angel tonight
Now I believe
I've been touched by an angel tonight
And I'm never gonna feel the same again.

Thinking back, I see it now
I kept my defences up
When temptation came around
Was I strong or just afraid
To take a fall
Or to give too much away

But tonight I see a change in me
And through the sands of time
I hope this fire that burns eternally
And you never leave my side

Chorus:
I've been touched by an angel tonight
Now I believe
I've been touched by an angel tonight
And I'm never gonna feel the same again.
