

# Let Your Hair Down

## Dwele

There she goes again walkin' home all alone  
Looking sad, baby, where's your friends?  
Why you never smile?  
Let the sun wash away all your pain so your inner child Ooh, could fly, maybe we can be friends  
And I'll dry your pretty eyes Get up off your sorrow  
Shake it up all night  
Throw it up, your hands high  
And let your hair down Get up off your sorrow  
Shake it up all night  
Throw it up, your hands high  
And let your hair down There's no need to hide, grab your purse and your keys  
Come on out, let the world inside  
Girl, it's time to play, yeah 'cause tomorrow's untold  
Let your dreams unfold your day, yeah Just fly, tell me we can be friends  
And I'll dry your pretty eyes, come on Get up off your sorrow  
Shake it up all night  
Throw it up, your hands high  
And let your hair down Get up off your sorrow  
Shake it up all night  
Throw it up, your hands high  
And let your hair down Get up off your sorrow  
Shake it up all night  
Throw it up, your hands high  
And let your hair down Get up off your sorrow  
Shake it up all night  
Throw it up, your hands high  
And let your hair down Don't you be afraid, don't you be afraid  
Let your hair down, shake it off, girl Girl, don't be afraid, I'm gonna show you a thousand ways  
So let go your heart, I'll lead the way  
If you just let me show [Incomprehensible]  
I wanna see you let your hair down Girl, don't be afraid, I'm gonna show you a thousand ways  
So let go your heart, I'll lead the way  
If you just let me show [Incomprehensible]  
I wanna see you let your hair down Get up off your sorrow  
Shake it up all night  
Throw it up, your hands high  
And let your hair down Get up off your sorrow  
Shake it up all night  
Throw it up, your hands high

And let your hair downGet up off your sorrow  
Shake it up all night  
Throw it up, your hands high  
And let your hair down
