

Season of Love

Shiny Toy Guns

Love, feel love Every question, every answer too
Ever constant, ever changing you
It's all memory in the sun
Or it's all in the darkness Maybe it's all around
To see if we try
And maybe it's been inside of me
All this time Love, love, love
Love, love, love
Love, love, love Love, love, love
Love, love, love
Love, love, love, ooh Crazy with it, crazier without
Never certain, never full of doubt
Now you feel it, now you don't
Do you know what you're feeling? Where did it come from
And where does it go?
If it were right in front of me
Would I know? Love, love, love
Love, love, love
Love, love, love Love, love, love
Love, love, love
Love, love, love Love, love, love
Love, love, love
Love, love, love
