Season of Love

Shiny Toy Guns

Love, feel loveEvery question, every answer too Ever constant, ever changing you It's all memory in the sun Or it's all in the darknessMaybe it's all around To see if we try And maybe it's been inside of me All this timeLove, love, love Love, love, love Love, love, love, love, love Love, love, love Love, love, oohCrazy with it, crazier without Never certain, never full of doubt Now you feel it, now you don't Do you know what you're feeling? Where did it come from And where does it go? If it were right in front of me Would I know?Love, love, love Love, love, love Love, love, love, love, love Love, love, love Love, love, love, love, love Love, love, love Love, love, love
