

Break My Fall

Plankeye

My coat is warm it shields me from the chill
Empty swings and I see couples kissing
Walk the path that leads back to the house
It's time for bed "Goodnight my love", she said Break my fall today
I lack the strength it takes to be invincible
From this earthly toll so many falls to break
Please show me what it takes to be immovable
When my spirit shakes Drive back home is this the same old road
I've seen those trees but never quite so clearly
Circumstance will change the way we see
This won't last I'm not alone Break my fall today
I lack the strength it takes to be invincible
From this earthly toll so many falls to break
Please show me what it takes to be immovable
When my spirit shakes
