Time (feat. Codi Caraco)

Mansions On The Moon

as time goes by my memories grow
'til my whole life is a book within my head
but I'd erase all the lonesome lines
and I'd replace them all with you insteadI've been keeping time with the seconds on the clock
but seeing you makes time stop
I've been keeping time with the seconds on the clock
but seeing you makes time stopas we grow old our vision fades
'til all we see are the memories in our minds
but I'd erase all the things i've seen
to see your face for a moment one more timeI've been keeping time with the seconds on the clock
but seeing you makes time stop
I've been keeping time with the seconds on the clock
but seeing you makes time stop
