The New Fly Away

Selectracks

I feel like I'm at the point
Point of no return
On a bridge to my past
I'll let the bridges burn

My sheltered life was a cocoon
I've had to have some breathing room
And now I'm finally breaking through

Chorus:
The road less travelled by
Has led me here today
And like the butterfly
I'll fly away

The road less travelled by
Has led me here today
And like the butterfly
I'll fly away

I'll fly away~

I've wasted so much time
Trying to be the me
That everbody wants
But now I'm finally free

And I have answered freedom's ring
And heard my future calling me
My new life has taken wing

Chorus:
The road less travelled by
Has led me here today
And like the butterfly
I'll fly away

The road less travelled by
Has led me here today

And like the butterfly
I'll fly away

I'll fly away! (I'll fly away, I'll fly away)
I'll fly away! (I'll fly away, I'll fly away)

There are times when I'm afraid
But every butterfly must change

Chorus:
The road less travelled by
Has led me here today
And like the butterfly
I'll fly away

The road less travelled by (less travelled by)
Has led me here today (has led me here today)
And like the butterfly
I'll fly away~
