

# Home for Christmas

\*NSYNC

Crossing the ocean with my window view  
Thinking of the time I spent with you  
And I close my eyes and I see the family  
Making out their wish lists, all dressed up for Christmas  
On my own for too many years  
I miss the happiness, I miss the tears  
When I close my eyes and I'm all alone  
I think of all the love we share, when I need a friend  
Or a helping hand I know that you will all be there  
I've been gone for so many holidays but you can light the fire  
'Cause this year  
(This year)  
I'll be home for Christmas day  
I see the children playing in the snow  
Precious memories that I used to know  
And I see the love in a mother's eyes  
(Mother's eyes)  
Always there to teach us the real meaning of Christmas  
On my own for too many years  
(Too many years)  
I miss the happiness, I miss the tears  
When I close my eyes and I'm all alone  
I think of all the love we share when I need a friend  
Or a helping hand, I know that you will all be there  
I've been gone for so many holidays but you can light the fire  
'Cause this year  
(This year)  
I'll be home for Christmas, it doesn't matter  
It doesn't matter  
How grown you think you are, something happens to ya  
When you see that shining star, when I close my eyes  
When I'm all alone, I think of all  
Think of all the love  
The love we share, when I need a friend  
(You are there)  
Or a helping hand, I know that you will all be there  
I've been gone for so many holidays, but you can light the fire  
'Cause this year  
(This year)  
I'll be home for Christmas day, when I close my eyes  
(Close my eyes)  
And I'm all alone  
(All alone)  
I think of all  
Think about the love we share  
The love we share, when I need a friend  
(Need a friend)

Or a helping hand  
(Helping hand)  
I know that  
(Know that you'll be there)  
You will all be there I've been gone for so many holidays, but you can light the fire  
I'm sending out this wire 'cause this year  
I'll be home for Christmas day, yeah I'm coming home  
Yeah, I'm coming home One more time, say whooo, I'm coming home, I'm coming home  
Whoo, yeah, I'm coming home  
(One more time, say whooo)  
Whoo, yeah  
(I'm coming home, I'm coming home)  
Whoo, whoo, whoo, yeah, I'm coming home, whoo  
Whoo, whoo, yeah, I'm coming home
