

# Tonight's All Right for Love

[Elvis Presley](#)

Hold me tight, the moon's so bright  
Tonight the night is right for love  
As warmed by one the stars up here  
I hold you oh, so close, my dear  
Things could be that magic kiss  
That night of bliss we've waited for Oh, we could fly right up to the sky  
How real it all seems to me  
A mid summers night dream to me  
Can't you see that tonight's alright for love Oh, we could fly right up to the sky  
How real it all seems to me  
A mid summers night dream to me  
Can't you see that tonight's alright for love
