Send My Love

Carlotta Chadwick

Saw you turning down a dead end street
Cold gray pavement under your feet
Dream that I could be in all your dreams
But I'll just send my love

If you're alone on a crowded train
Rattling home from another day
Turn the noise down and switch of your brain
And I'll just send my love

And from a distance I'll appreciate
All your victories and fears
And I'll tell my aching soul to wait
until the day you come back to me
And if I stumble across your path
Maybe I'm blind, maybe in the dark
I love you my weary heart
But I'll just send my love

So I'll count my blessings say my prayers
For all that's beautiful and true
Coz I've seen angels on a town hall stairs
But they can't hold a candle to you
So if you wonder down a dead end street
Gone astray from a path you seek
Maybe one day you and I will meet
And I will send my love,
And I will send my love
