Run For Your Life

Matt Cardle

You need somebody who likes them self
Who lives for life and never calls for help
You need somebody to walk you back
Someone who loves you too before you ask
You're worth more, you're worth more than this
You can take a leap without the risk
There's no time, there's no time for this
Take your love and start again
So run for your life
Run for your life
If you leave me behind
You'll get there in in time
You need someone who can stand alone
Who finds the way, instead of being shown
Somebody with confidence
Who's strong enough to be hit more than once
You'll find more, you'll find more than this

Take the world that's at your fingertips
Don't waste time, don't waste time on this
Take your love and start again
So run for your life
Run for your life
If you leave me behind
You'll get there in time
Run, run and don't look back again
Run, run, one day you'll understand
I'm not, no, I'm not who you think I am
So run for your life
Run for your life
If you leave me behind
You'll get there in time
Run for your life
Run for your life
If you leave me behind
You'll get there in time
