

# If You Will Go

## Dreamtale

[Music: Kernen, Words: Ristolainen] I close my eyes and hear your voice

You will always be my only choice

As you speak the words of love

I sense the warmth and feel so calm

I barely feel your fingertips

Across my skin and on my lips

The feeling that you are close to me

Makes me shiver, makes me weep

[Chorus]

No one is more than you

Nothing compares to you

If you give my love away

You'd better know the game you play

'Cause my heart will loose a home

If you will go

[Solo]

I wish this night to last forever

And we could always be together

But by the dawn you'll be gone

And once more I'll be left all alone

Before you go my precious one

My only love, my brightest sun

I have one wish before you fly

Please come back tomorrow night

[Chorus x2]
