

Last Party (Orchestra Version)

Mika

There's a party going on in here
It's been happening for many years
You weren't invited and don't want to stay
But keep partying anyway DJ's playing that familiar tune
Got them dancing, shaking up the room
They hear the beat but they don't know the words
This is the saddest song I've ever heard If you could look into the future, would ya?
If you could see it, would you even want to?
I got a feeling that there's bad news coming
But I don't want to find it out If it's the end of the world, let's party
Like it's the end of the world, let's party
And wrap your arms around everybody
If we're all gonna die, let's party, let's party, let's party
Who can I blame with everything I've done?
Is this the price we pay for too much fun?
Don't be misled it's not a twist of fate
It's just what happens when you stay out late So raise your glasses all my kings and queens
Smash the chandelier to smithereens
Who knew that Mercury could rise so fast
Enjoy the party 'cause this is our last If you could look into the future, would ya?
If you could see it, would you even want to?
Got a feeling that there's bad news coming
But I don't want to find it out If it's the end of the world, let's party
Like it's the end of the world, let's party
Wrap your arms around everybody
If we're all gonna die, let's party
If it's the end of the world, let's party
Like it's the end of the world, let's party
Wrap your arms around everybody
If we're all gonna die, let's party Let's party, let's party
Let's party, let's party There's a party going on in here
It's been happening for many years
And even if it all goes bad
It was the best time we ever had
