Slave

Silverchair

Lived too long, now you've come to take me to

A place where I can die

Lost my soul, lost my confidence in me

Give me something but I'll tryLived too long and waited to just drown

In my self pity, I keep falling downWant to be your soldier

Want to be your slave

I have no pride in myselfOnly book that I own is called 'How to lose'

Pick a chapter, I know them all, just chooseLived too long and waited to find

A place where I can die

Lost my soul, lost my confidence in me

Give me something but I'll tryWant to be your soldier

Want to be your slave

I have no pride in myself

That's how I behaveI can't find, I can't find

I can't find, I can't find life
