Medicine

Starfucker

Never remember,
Your birthday,
Or anything you like

Sorry, so helpless
So help you,
Anyway you like

Take your medicine
Make your medicine
Make your medicine
Make your medicine
Make your medicine
Make your medicine
Make your medicine

Never remember,
Your birthday,
Or anything you like

Sorry, so helpless
So help you,
Anyway you like

Take your medicine
Make your medicine
Make your medicine
Make your medicine
Make your medicine
Make your medicine
Make your medicine
