All of you

ä¸-å³¶ç´ éŸ³

i know that i was wrong
when i read your letter
but i just had to know if you still miss her
cos you feel far away when i kiss you
and every word you say sounds so confused
i don't wanna hold you if you don't wanna stay
tell me everything, tell me every little thing
i won't runaway no matter what you say
i wanna hear your heart every single beat apart
the good and the bad i swear i won't get mad
it's you i want, all of you
you, you, you..
no matter what i'm feeling i won't hide it
and know that you can tell me every secret
cos i'm no good at guessing
i just need to know..

tell me everything, tell me every little thing
i won't runaway no matter what you say
i wanna hear your heart every single beat apart
the good and the bad i swear i won't get mad
it's you i want, all of you
all of you, all of you
all of you..
so tell me everything, tell me every little thing
i won't runaway no matter what you say
i wanna hear your heart every single beat apart
the good and the bad i swear i won't get mad
it's you i want, all of it
it's you i want, all of you
you, you, you..
you, you, you..
you, you, you..
