

Human Behavior

King's X

Business as usual, just what's on your mind
Give you some of mine
So the breaks don't come so easy hesitate
And fall asleep, taking care of mine So the crime we find is just human behavior
Everybody's in the line
So the crime we find is just human behavior
Time will find Little do we really know?
The river ego deep and wide
Everybody mission If I make the wrong decision
Never known is never more
Faster than before So the crime we find is just human behavior
Everybody's in the line
So the crime we find is just human behavior
Time will find you, yeah, you, yeah
You'll find me, time [Incomprehensible] Business as usual, just what's on your mind
Give you some of mine
So the breaks don't come so easy hesitate
And fall asleep, taking care of mine So the crime we find is just human behavior
Everybody's in the line
So the crime we find is just human behavior
Time will find So the crime we find is just human behavior
Everybody's in the line
So the crime we find is just human behavior
Time will find you
