Yes I Am

Radiohead

I resent you calling
I resent your voice
I resent that I don't have a choiceAnywhere I go
You are always there
Outside the car or in my hairI think I've been here before
Yes, I've been here before
The last time you locked all the doorsAnd I resent you calling
I resent your voice
I resent that I don't have a choiceAnd yes I am wary
Yes, I amI think I told you once
I think I needed advice
You were such a help
That's very niceI think I've been here before
Yes, I've been here before
But this time I kick down your doorAnd yes I am wary
Yes, I am wary
