

# Yes I Am

## Radiohead

I resent you calling  
I resent your voice  
I resent that I don't have a choice Anywhere I go  
You are always there  
Outside the car or in my hair I think I've been here before  
Yes, I've been here before  
The last time you locked all the doors And I resent you calling  
I resent your voice  
I resent that I don't have a choice And yes I am wary  
Yes, I am I think I told you once  
I think I needed advice  
You were such a help  
That's very nice I think I've been here before  
Yes, I've been here before  
But this time I kick down your door And yes I am wary  
Yes, I am wary
