

# Believe

## Smashing Pumpkins

Close your eyes  
Until' the sunlight dies  
In your head a thousand stars  
Through the darkness, you can see a light  
And if they steal your life  
Your heart is still mine  
I want to believe in you and I heard you  
Your song, you sing, a truth, there's no other  
I want to believe in you, dear  
On Sunday  
There's a life I hide  
Well I tried to disguise  
And I can take you a million miles away  
I want to believe in you and I heard you  
Your song, you sing, a truth is no other  
I want to believe in you, dear  
On Sunday I made amends  
Of all my mistakes  
May God speed be with you  
Ooh, ooh, ooh, ohh  
And I want to believe in you and I heard you  
Your song, you sing, a truth, there's no other  
I want to believe in you and I heard you  
Your song, you sing, a truth, there's no other  
I want to believe in you and I heard you  
Your song, you sing, a truth, there's no other  
I want to believe in you, dear  
On Sunday  
On Sunday I made amends  
For all my mistakes  
May God speed be with you
