

# Necroshine

## Overkill

You can take me out of my hell  
You can't take the hell on out of me Watch me here as I get  
But be careful of what you see, oh well I cut across the waste  
Some live and some enshrined  
I look into the light of the necroshine Don't you worry 'bout me  
You know I'm doin' fine  
Basking in the light  
Of the necroshine In the name of all that's sacred  
In the name of misery Watch me here as I turn red  
But remember what you see, oh well I hunger for a taste  
To fill me glass with wine  
Away from the right into the necroshine Don't you ever doubt me  
As you walk the line  
Guided by the light  
Of the necroshine I think that I have been reborn  
Just a little better than before  
I think I tried to tell myself  
That I needed just a little more They always tried to sell me  
Hang me what I couldn't use  
Always tried to get a little better  
With an offer that I can't refuse You can take me full of fire  
You can take me as you find  
Or you can leave me here  
Where you gonna see me  
Guided by the necroshine Necroshine  
Necroshine  
Necroshine Don't you worry 'bout me  
You know I'm doin' line  
Basking in the light  
Of the necroshine Don't you ever doubt me  
As you walk the fine  
Guided by the light  
Guided by the light  
Of the necroshine
