

# Kicking and Screaming

## The Presets

When I was young I collected my heroes  
When I was young I was a star amongst zero's  
But then I grew up and now I'm heading up river  
I'm gonna cover myself in mud, mud  
Yeah, I'm a deliver Never can believe how much fun we're having  
Can't believe how much fun we're having  
Never can believe how much fun we're having  
[Incomprehensible] When I was young, yeah I used to believe it  
That the stars in the night sky  
Were sun's that refused to sing  
And then I sank Never can believe how much fun we're having  
Can't believe how much fun we're having  
Never can believe how much fun we're having  
[Incomprehensible] Never can believe how much fun we're having  
Can't believe how much fun we're having  
Never can believe how much fun we're having Never can believe how much fun we're having  
Can't believe how much fun we're having  
Never can believe how much fun we're having  
[Incomprehensible]
