

# R.K. On Death

## Our Lady Peace

Take death for example  
A great deal of our effort goes into avoiding it  
We make extraordinary efforts to delay it  
And often consider its intrusion a tragic event  
Yet we'd find it hard to live without itDeath gives meaning to our lives  
It gives importance and value to time  
Time would become meaningless if there were too much of it  
If death were indefinitely put off, the human psyche would end up  
Well, like the gambler in the, "Twilight Zone" episode
