

# All Night Holiday

[Russ Abbot](#)

Let me take you somewhere you will not forget  
Somewhere you have never been before  
You say you've seen the best, you ain't seen nothing yet  
Tonight we'll have you shouting out for more, more, moreChorus  
We'll have an all night holiday,  
An all night holiday  
Everyone from miles around  
We'll hit the heights and paint the town  
We'll have an all night holiday,  
And dance the night away  
Everybody come on down  
We'll have an all night holidayThe night is young and summertime is in the air  
Turn the sound up and let the music play  
We'll keep on dancing till we greet the morning air  
So come on down and let your body go, go, goChorus  
Chorus
