

All Around

Five

Gotta get up, just to get 'em down
We've been rockin' it all around, yeah We've been all around the world, seen so many things
Tasted of the good things that life can bring
We're like brothers now, and that ain't gonna change, no way
And even when things go wrong, they're always by my side
We each bought a ticket for this ride Only going one way, ain't no looking down
We'll be rockin' it all around, yeah Gotta get up, just to get 'em down
Us Five boys are always gonna rock you
Hey, hey, we're movin' on now
All through the night, sing it now Yeah, when the lights go down
Raise your hands if you got that feelin'
Hey, we've been rockin' it all around, yeah
Rockin' on, rockin' on all night
Rockin' on, rockin' on all night
Rockin' on, rockin' on all right, yeah I remember all the times, all the laughter and the tears
Special little moments through all of the years
As the sands of time go by, we're older and we're wise, oh yeah
I never dreamed we'd come this far, we remember who we are
Guess we've been guided by a lucky star Only going one way, ain't no looking down
We'll be rockin' it all around, yeah Gotta get up, just to get 'em down
Us Five boys are always gonna rock you
Hey, hey, we're movin' on now
All through the night, sing it now Yeah, when the lights go down
Raise your hands if you got that feelin'
Hey, we've been rockin' it all around, yeah
Rockin' on, rockin' on all night, oh, all through the night
Rockin' on, rockin' on all night Yeah, when the lights go down
Raise your hands if you got that feelin'
We've been rockin' it all around We've been all around the world
We each bought a ticket for this ride
Only going one way, ain't no looking down
We've been rockin' it all around, yeah Gotta get up, just to get 'em down
Us Five boys are always gonna rock you
Hey, hey, we're movin' on now
All through the night, sing it now Yeah, when all the lights go down
Raise your hands if you got that feelin'
Hey, we've been rockin' it all around, yeah Gotta get up, just to get 'em down
Us Five boys are always gonna rock you
Hey, hey, we're movin' on now

All through the night, sing it now Yeah, when the lights go down
Raise your hands if you got that feelin'
Hey, we've been rockin' it all around, yeah Gotta get up, just to get 'em down
Us Five boys are always gonna rock you
