Dirty Shirt

Ray Scott

Ronnie wasn't much on the thought of a coat and tie 'Cause they ain't much good to a man Wearin' steel-toed boots from eight to five He's been known to pop the top on a brew He came off a little rough sometimes, but folks that know him knew If you can look past a dirty shirt See beyond greasy hands You'll find a heart hard at work In a damn good man Army green seemed to suit him more than college life Well, that's what his old man did and he turned out alright He never got him that great big house or fancy car But ya'll, it ain't the neighborhood you're in, it's the neighbor that you are And if you can look past a dirty shirt See beyond greasy hands You'll find a heart hard at work In a damn good man He's got scars and an angel on his arm, he got in Saigon in '65 To most folks he ain't nothin' more Than the ol' boy on the corner changin' tires But if you look past a dirty shirt See beyond the greasy hands You're gonna find a heart hard at work Yeah, if you can look past a dirty shirt See beyond greasy hands You'll find a heart hard at work In a damn good man Kinda like my Dad
